Create your unique 3D/4D chocolate topping or inclusion.

INTRO

Smet's 3D or 4D chocolate inclusions and toppings are ideal for branding purposes by creating original pieces of chocolate. They are suitable for decorating cakes, pralines, desserts or to mix with cereals, ice-cream or yoghurt.

PHASE 1

Tell us your idea and we will make it work in 3D/4D chocolate. Our R&D team will create a 3D concept drawing and deliver a real-size plastic 3D print.

PHASE 2

The test-tooling will be developed and handmade 3D chocolate samples will be provided.

PHASE 3

After the test-tooling is approved, full production-tooling will be set up. We are now ready to produce your 3D/4D chocolate idea!

DESIGN RULES

The 3D/4D figures can be max. 15mm wide and max. 5mm tall. The final design should be spherical (conical shape) from the top. The bottom is always flat.

CHOCOLATE OPTIONS

3D chocolate is Belgian dark, milk or white chocolate. 4D chocolate combines colour and flavour. Almost every colour and flavour is possible. We can even make it shiny.

FIGURE WEIGHT

When the figure weighs 0,4 gr, you will get 2500 pieces in 1 kg. A bigger figure of 0,7 gr will give you 1400 pieces in 1 kg.

MINIMUM ORDER QUANTITY

Because of the custom development and all preparations for production tooling, the minimum order quantity is 1 pallet.
